

IEEE STUDENT BRANCH

AL AIN UNIVERSITY OF SCIENCE AND TECHNOLOGY

Jun 11, 2013

IEEE Student Branch at Al Ain University of Science and Technology

The Institute of Electrical and Electronics Engineers (IEEE) has approved the application submitted by the AAU College of Engineering and Information Technology to form an IEEE Student Branch at Al Ain University of Science and Technology.

On this occasion, Dr. Nazih Khaddaj Mallat, Head of the Network & Communication Engineering and Computer Engineering Department, the counselor of this student branch, said that this student branch of IEEE will represent an excellent and great opportunity for our students in the College of Engineering and Information Technology to develop their professional networks and management skills, committee experience, managing projects, and managing people which will definitely improve their CV's.

Dr. Khaddaj Mallat added that the IEEE is considered one the largest professional societies in the world dedicated to the support of technological innovation and distinction through conferences, scientific publications, technology standards, as well as educational and scientific activities.
