AAU organized a workshop on Programming for Island School

A Student Delegation from the “Abu Dhabi Island International Private School” were received by the Al Ain University of Science and Technology to attend a workshop about “Scratch Programming Language” organized by the College of Engineering at Al Ain Campus.

At the beginning, Dr. Nazih Khaddaj Mallat (Dean, College of Engineering) welcomed the visitors, wished them a useful and interesting workshop, and stressed on the AAU’s keenness to, cooperate with different educational institutions at UAE and spread benefit at all levels.

The workshop was presented by Saqib Iqbal (Head of “Software Engineering and Computer Science” Department) and Dr. Abdullah Mansour, starting with a general explanation about the programming language (Scratch) and its advantages. The students programmed some issues and a competition was held between students to select the best program

At the end of the workshop, Dr. Khaddaj Mallat honored the attended students and wished them a great scientific future.
