College of Engineering Enhances “Machine Learning” for Students

The college of Engineering in collaboration with information technology center at Al Ain University of Science and Technology, organized a workshop entitled “Artificial Intelligence and Machine Learning “at Al Ain Campus, presented by Mr. Raed Hijer, an expert and client Technologist at Dell, Middle East and Africa. And, attended by Dr. Qutaibah Al Thebyan, Dean of the College of Engineering, Dr. Nazih Khaddaj Mallat, Director of the Quality Assurance and Institutional Research Center, Mr. Mohammad Rasoul Al Saidat, IT Center Manager, in addition to, the academic staff and students of the college.

Mr. Hijer gave an introduction with insightful details about artificial intelligence, machine learning and deep learning concepts, the basics of Deep Learning, its stages, Ecosystem and hardware requirement to build a successful Deep Learning Project, in addition to, demonstration examples about deep learning.

The workshop was concluded with a live demonstration of Virtual Reality (VR) and Augmented Reality (AR) in different environments, which witnessed a positive interaction from the audience who were involved in the demonstration.

Organizing this workshop aims to enhance the knowledge and skills of the academicians and students about the artificial intelligence and Machine learning to qualify graduates to cope up with the technology of the future.
